| Clonakilty Lissavaired Co-Op | May 19th – 20th 2008 | | |

Silage plastic should be transported loose in a trailer to any of the above collection points. Please ensure that the plastic is as clean and dry as possible. Any netting brought to the collection points should be kept separate from plastic and ideally bagged. It is very important that you bring your 6-digit label code to the collection point. This 6-digit label code is displayed on all invoices/receipts relating to the purchase of levied silage plastic wrap. It entitles you to have your plastic waste collected at a significantly reduced collection fee.

Fee Structure in 2008

With Code
Without Code

Bring-Centre 0.5 tonnes

(approx. 300 wraps /
4 covers)

€35
€85
